

## PANDORA®

radio from the Music Genome Project®

With Pandora you can explore this vast trove of music to your heart's content. Just drop the name of one of your favorite songs or artists into Pandora and let the Genome Project go. It will quickly scan its entire world of analyzed music, almost a century of popular recordings - new and old, well known and completely obscure - to find songs with interesting musical similarities to your choice. Then sit back and enjoy as it creates a brand new personal radio station full of current and soon-to-be favorite songs for you. If Pandora plays a song you do not like, simply choose the 'thumbs down' choice on your Grace radio and it will never play that song again. If you enjoy a particular song choose 'thumbs up' and it will keep that song on your personal radio station and play more songs like it.

You can create as many personal stations as you like on the Pandora web site and listen to them on your computer, Grace Digital Radio, iPhone or many of the other Pandora enabled devices.

## SIRIUS® INTERNET RADIO

Sirius' US-based commercial-free satellite music channels are also available in your home via the Grace Digital Radio without the need for a SIRIUS satellite antenna. If you have a SIRIUS subscription that includes their internet radio service, simply add your SIRIUS user name and password in the Grace Digital Radio and start listening today. SIRIUS packages that include free online listening (32k) can be upgraded to CD-quality audio (128k). Some packages are SIRIUS Everything Plus The Best of XM, SIRIUS Everything, Family Friendly Plus The Best of XM, and Family Friendly.

## MP3tunes

MP3tunes offers an online music Locker which can be accessed from any computer or web-enabled device so you can enjoy your music at home, work or school. MP3tunes is a Music Service Provider (MSP) and the home of MP3tunes Locker, the only secure, online music space to feature unlimited listening. With just a couple clicks, Locker users sync up their own music collections to enjoy through any web browser and a growing number of home entertainment and mobile devices. The MP3tunes Locker is available in an ad-supported Free edition, along with the MP3tunes Premium Locker which permits larger music files, full access to album cover art and full customer support access.

## HDiRadio

-Digital Internet Radio-

It's the most significant advancement in radio broadcasting since the introduction of FM stereo more than 50 years ago. HD iRadio technology enables AM and FM radio stations to broadcast their programs digitally – a tremendous technological leap from the analog broadcasts of the past.

However, now those same HD radio stations are now rebroadcast over the internet. So with the Grace Digital Radio not only can you receive many of your new local HD radio stations but over 500 HD radio stations from around the United States – Thanks to Grace Digital and the internet.

Please contact your Grace Digital Audio account representative for more information.
